HotZone™ Universal Fixed Mount Heater

Electric Universal Fixed Mount Heater

The HotZone™ Electric Universal Fixed Mount Radiant Heater is intended for a wide variety of indoor and outdoor uses. The heater comes in 1500W and 3000W models. The highly efficient 1500W, 120V heater with the patented IRLens™ raises the temperature of people or objects in a 14 square foot area, eight feet from the heater, by 15 degrees or more. The Universal Fixed Mount Radiant Heater attaches to wall or ceiling junction boxes with its universal adaptor (included.) The heater direction can be adjusted up or down to stay focused on the area to be heated. Operating costs for the 1500W heater are 15 cents an hour when electric power costs 10 cents/KWh.
