**HotZone™ Wall Mount Heater**  
**with Directional Use**

## Wall Mount Heater

The HotZone™ Electric Wall Mount Radiant Heater is intended for a wide variety of indoor and outdoor uses. The highly efficient 1500W, 120V heater with the patented IRLens™ raises the temperature of people or objects in a 14 square foot area, eight feet from the heater, by 15 degrees or more. The Wall Mount Radiant Heater attaches to a wall with four screws and plugs into a normal wall socket. The heater direction can be adjusted up or down and left/center/right to stay focused on the area to be heated. Operating costs are 15 cents an hour when electric power costs 10 cents/KWh.

## Dare To Compare

**HotZone™ Electric Radiant Heaters from Schaefer:**
